

# Process for Developing Programmatic Coverage for Drainage Maintenance and Repair Activities Under the TPEAC Unified Conditions Approach

## Step 1

Jurisdictional agencies engage in process to develop Unified Conditions:

- WDFW
- Ecology
- Corps

### Unified Conditions

- Identifies agreed upon and agency specific conditions
- Document becomes operational upon agency signatures

\*Public review process may follow in step 2 obtaining Programmatic permits

## Step 2

WSDOT and other similar entities apply for programmatic permit coverage based on Unified Conditions:

WDFW – Issues 5 year General HPA

Ecology – Issues Water Quality Implementing Agreement

Corps – Issues Regional General Permit

## Step 3

Develop Permit Guidance Procedures Document. This document will contain all programmatic permits and regulatory procedures for the subject activity.
